## COMMUNITY NEWS: Dog Health Program to visit APY Lands

19 August 2022

The Uwankara Palyanyku Kanyintjaku (UPK) dog health program will be in the APY Lands from Monday, 22 August to Friday, 26 August 2022.

The dog health program is one of the longest continuous programs of its kind in remote Australia, and enjoys high levels of Anangu acceptance and participation.

Dr Robert Irving, travelling with Environmental Health Worker (EHW) teams, will be at the following locations for dog vet clinics:

- Iwantja and Mimili on Monday (22/8/22)
- Fregon and Pukatja on Tuesday/Wednesday (23-24/8/22)
- Amata and Murputja on Thursday (25/8/22)
- Pipalyatjara, Kalka on Friday (26/8/22).

Dr Bob will be travelling with the UPK EHWs.

The UPK program is involved in the development, implementation, and monitoring of regional and community public health, and aims to highlight the relationship between good living conditions and health outcomes.
