Inherent Limitations

This report has been prepared as outlined in the Scope Section. The services provided in connection with this engagement comprise an advisory engagement, which is not subject to assurance or other standards issued by the Australian Auditing and Assurance Standards Board and, consequently no opinions or conclusions intended to convey assurance have been expressed.

Due to the inherent limitations of any internal control structure, it is possible that fraud, error or non-compliance with laws and regulations may occur and not be detected. Further, the internal control structure, within which the control procedures that have been subject to the procedures we performed operate, has not been reviewed in its entirety and, therefore, no opinion or view is expressed as to its effectiveness of the greater internal control structure. The procedures performed were not designed to detect all weaknesses in control procedures as they are not performed continuously throughout the period and the tests performed on the control procedures are on sample basis. Any projection of the evaluation of control procedures to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

No warranty of completeness, accuracy or reliability is given in relation to the statements and representations made by, and the information and documentation provided by, Anangu Pitjantjatjara Yankunytjatjara's and the Department of State Development's management and personnel consulted as part of the process.

KPMG have indicated within this report the sources of the information provided. We have not sought to independently verify those sources unless otherwise noted within the report.

KPMG is under no obligation in any circumstance to update this report, in either oral or written form, for events occurring after the report has been issued in final form.

The findings in this report have been formed on the above basis.

Third Party Reliance

This report is solely for the purpose set out in the Scope Section and for Department of State Development's information, and is not to be used for any other purpose.

This report has been prepared at the request of the Department of State Development in accordance with the terms of KPMG's engagement letter dated 27 May 2015. Other than our responsibility to the Department of State Development neither KPMG nor any member or employee of KPMG undertakes responsibility arising in any way from reliance placed by a third party on this report. Any reliance placed is that party's sole responsibility.

Electronic Distribution of Reports

This KPMG report was produced for the use and benefit of the Department of State Development and cannot be relied on, in whole or in part, in any format by any other party. The report is dated 18 June 2015 and KPMG accepts no liability for, and has not undertaken work in respect of, any event subsequent to that date which may affect the report.

Any redistribution of this report requires notification to KPMG in a timely manner prior to release. In any event the distributed report is to be a complete and unaltered version of the report and accompanied only by such other materials as KPMG may agree.

Responsibility for the security of any electronic distribution of this report remains the responsibility of the Department of State Development and KPMG accepts no liability if the report is or has been altered in any way by any person.

1.0 Executive summary

This report provides the Department of State Development ('DSD') and Anangu Pitjantjatjara Yankunytjatjara ('APY') with an update of corrective action undertaken by APY in the period to 22 May 2015 to address key deficiencies identified in our previous report, a draft of which was issued to DSD on 22 April 2015. This draft informed KPMG's subsequent work with APY in mid-May 2015 which is the subject of this report. The final report titled "*APY Land Rights Administration Grant Review*" ('the Prior Report') is dated 1 May 2015 and was released by the DSD on 5 June 2015.

1.1 Objective

KPMG performed agreed upon procedures with the objective of communicating APY's position on addressing the key deficiencies identified for expenditure and reporting. KPMG performed the following procedures:

1.1.1 Reviewed the current status of controls (including payroll) implemented by the Interim General Manager;

1.1.2 Examined the status of bank reconciliations;

1.1.3 Examined the control framework for ledger account reviews;

1.1.4 Reviewed the current methodology and status of account and job code allocations against our Prior Report;

Prepared a status report based on procedures undertaken.

A draft of this report dated 15 June 2015 was provided to the APY for comment. Attached Appendix 1 is the APY Interim General Manager's letter of response to the draft report.

Please note that this report does not address, and is not intended to address, APY's corrective action on all of the issues and deficiencies identified in our Prior Report dated 1 May 2015.

Please also note that "Read-Only" access was granted to MYOB with all proposed changes to be approved by the Interim General Manager and implemented by Araluen Taxation Services ('ATS').

2.0 Progress against the findings in the Prior Report

During mid-May 2015, KPMG was engaged by the DSD to assist APY in addressing the findings from our Prior Report (dated 1 May 2015). The four key findings from that report are listed below, along with relevant observations regarding APY's progress in dealing with these shortcomings. It is evident that there has been work undertaken to address these findings, however more work is needed to comprehensively address all the findings in the Prior Report.

Minister Maher,

I submit the following response to the June 2015, Grant Review Status Report conducted by KPMG in mid May 2015. I acknowledge the contents of this report and thank KPMG for their involvement and Jake Kantilaftas for his thoroughness in compiling this report. The remedial action outlined below was achieved with the full support of the Director of Administration Mr Rex Tjami, Umuwa office staff and Araluen Taxation Services (ATS).

In this submission I will respond to the reports four observations:

2.1 Significant financial discrepancies and internal weaknesses:

- 2.1.1 The Interim General Manager has worked closely with ATS to build a robust financial accounting system that is transparent with appropriate checks and balances that support the APY business and enables sustainable development into the future. The system outsourced
- 2.1.2 All approvals are currently being signed off by the Interim General Manager including the checking of cost coding and approvals of payroll and time sheets. This will be delineated to managers and coordinators when the new financial year commences. There is a delegation schedule that has been developed to guide this process.
- 2.1.3 All job codes for reconciliations and have been checked and wrong coding corrected. Bank reconciliations are being carried out on a weekly basis.
- 2.1.4 All advances are checked and approval to deduct forms are filled out and approved by the Interim General Manager after discussion with the requesting Executive member. The approval is assessed individually with no advances exceeding the amount of the next scheduled meeting payment.

2.2 Disbursement under the Administration funding:

- 2.2.1 The Interim General Manager has worked hard to ensure the purchase order system is regulated. All purchase order books are collected and collated every Monday morning. They are coded and sent to ATS on Thursday for entering and reconciliation. This system will keep APY’S cash position a week behind purchases.

A future system will involve a cloud based solution to instantly track and monitor this process, so that approval, entry, reconciliation and payment are done electronically and cash positions will be known instantly.

2.2.1 The Interim General Manager will bring the delegation of authority on line in the new financial year after training all managers and coordinators on budget management. New budgets have been developed and will be further refined on Thursday the 18th June in preparation for the new financial year.

2.3 Key reconciliation and reporting and monitoring controls not performed:

2.3.1 The Bank reconciliations have been brought up to date and are complete and will be reconciled on a weekly basis. The credit card is in the process of being reconciled with the credit card statements. However, the receipts for the first half of the 2014 are being held by ICAC following their seizure in December.

2.3.2 The job coding is formalised. All coding is entered by staff and checked by the bookkeeper when reconciling the purchase orders with the invoices. These two documents are checked by the Interim General Manager before sign off. They are sent for entering on Thursday every week.

2.3.3 MYOB files are now reconciled and there is one live MYOB data file that can be seen by both ATS and APY from their offices.

2.3.4 Reconciliations of Accounts payable accounts /receivable/employee entitlements are currently in progress and due for completion the end of July.

2.4 Law and Culture and sitting fee

2.4.1 The \$1600 of sitting fees had been corrected. In reality only \$500 of sitting fees was wrongly disbursed and needed to be journal back to the funding source, as \$1100 had been wrongly coded and was simple to rectify by entering the correct code.

It should be noted that the Interim General Manager (Richard King) and the Manager Anangu Engagement (Tania King) had only three weeks on the ground in Pitjantjatjara Yankunytjatjara Lands Umuwa Office to implement the remedial actions outlined in the Prior KPMG Report.

The Interim General Managers tenders this response to the June 2015, Grant Review Status Report conducted by KPMG in mid May 2015 for your consideration.

Sincerely

Richard King
Interim General Manager APY
