

## Entry into Designated Biosecurity Areas

### COVID-19 Record of Health Status – Individual

People entering the Designated Areas, (Remote Communities) regardless of the reason, **MUST meet ALL of these minimum requirements (Entry Criteria)** and be prepared to sign or verbalise a declaration that they have done so.

The intent is to ensure (as much as possible) the person is not infected with coronavirus disease.

- The declaration can also be obtained verbally and without a signature by answering the questions on this page.
- It is only an 'individual' (or the accompanying adult in the case of a dependent child) who can verify to their own health status. An organisation or family member/friend cannot complete the form on behalf of the person applying to enter.
- This Form (or equivalent verification) must be completed immediately prior to entry (the day of) and a record may be retained by your employer and/or the local decision-maker.
- You will need to provide other information such as the reason for entering the Designated Area and what you will be doing to limit the risk of transmitting the virus. See [COVID-19.sa.gov.au – Restrictions on movement into Aboriginal communities](https://www.sa.gov.au/covid-19-restrictions) for more details or contact the Regional Decision Maker or Local Community Contact for the area.
